In addition to training our players to reach their fullest potential, we are committed to giving back to our community. In recent years, we have run very successful and well-received clinics in our community - free of charge! This has provided several athletes with the opportunity to be exposed to club volleyball.

We see the sport of volleyball as another avenue to college scholarships. The club's training has enable 10 players to attend college on volleyball scholarships since the club's inception just 4 short years ago. The many accomplishments of the club reassures us that we are on the right path for providing opportunities for our athletes to play volleyball at the next level if they desire to do so.

Shockwave Volleyball is a 501(c)3 organization. Your contribution are tax deductible.
